- Designed to minimize moldings
- Cost effective when compared to drywall
- Supports attic insulation
- Hassle-free and quick installation time
- Elegant sheen for bright clean look

Interlocking PVC Tongue and Groove

Our new TekKor Wall & Ceiling Systems are designed to make your life easier, during installation process and for the life of the build-out. These tough, attractive tongue-&-groove panels are extremely durable, provide a water-tight seal, and offer a lifetime of premium performance. Simple to install, these panels eliminate the need for most accessories, which can lower the cost of installation. The smooth, monolithic surface of the installed TekKor provides easy cleaning and maintenance and the bright white finish contributes to a fresh interior appearance.
