

Aluminum Composite Panel

(ACP) DURABLE, RELIABLE & VERSATILE

Aluminum Composite Panels (ACP) are a versatile and high-performance cladding solution designed for various architectural applications. Comprising two layers of aluminum sheets bonded to a non-aluminum core. ACPs offer excellent durability, aesthetic appeal, and ease of installation. These panels are ideal for both interior and exterior use in commercial, residential, and industrial projects.

- DURABLE
- LIGHTWEIGHT
- AESTHETIC FLEXIBILITY
