

Agriculture Doors

DURABLE, CUSTOMIZABLE, ENERGY EFFICIENT

Our agriculture doors are designed to withstand the harsh conditions of agricultural environments. Whether you need entry doors for confinement buildings, warehouses or other agricultural buildings, our doors offer superior performance and reliability.

- **LAMINATED CORE**
Constructed with a combination of wood and foam for strength and insulation.
- **HEAVY-DUTY WEATHER STRIPPING**
Ensure superior protection against the elements
- **DURABLE & STRONG**
- **CUSTOMIZABLE**
- **ENERGY EFFICIENT**
- **EASY TO INSTALL**
- **LONG-LASTING PERFORMANCE**

SUGGESTED APPLICATIONS & USES

Commercial buildings
Ideal for office buildings, retail spaces and other commercial structures.

Water treatment facilities: Perfect match due to their corrosion resistance, durability, and ability to withstand harsh, moist environments.

Educational facilities
Applied in schools and universities for their energy-saving benefits.

Healthcare
Suitable for hospitals and clinics, providing an efficient and comfortable building envelope.

Agriculture buildings
Used in barns, storage facilities and other agricultural structures for their insulation and durability.

STANDARD SIZES

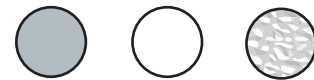

32"x80" 36"x80"

OPERATION

Left swing Right swing Up swing Double

SKINS

Stainless Steel UV FRP Class A Textured Aluminum

JAMBS 4" or 6" Standard Thickness

- Stainless Steel Flange or Box
- Fiberglass

LATCHES

Standard SST Latch
Slide Latch
Cam Latches
3-Point Lock
Emergency/Panic Bar
Residential Bore

LITES

16"x16" 20"x24"
